

7-Day Accountability Tracker

Day & Date	One Task I Will Complete Today	Done / Not Done	What Helped / What Blocked Me?
Day 1	Optimize database queries for faster retrieval	Done	Helpful: Focused work session, clear problem identification. Blocked: Small delay due to debugging.
Day 2	Refactor a function for better readability	Done	Helpful: Focused time, clear issue, easy fix. Blocked: None
Day 3	Review and give feedback on a teammate's code	Done	Helpful: Understanding of teammate's work, collaboration. Blocked: Limited time, but managed.
Day 4	Write meaningful comments for an existing function.	Not Done	Blocked: Too many urgent requests, couldn't focus.
Day 5	Fixed performance issue where the process was taking too long to create records.	Done	Helpful: Identifying bottleneck, optimizing process. Blocked: Some challenges with data.
Day 6	Debug and fix an issue causing a crash in production	Done	Helpful: logs. Blocked: Issue was intermittent, hard to reproduce.
Day 7	Implement error handling in a newly developed module	Done	Helpful: Clear error handling strategy. Blocked: Minor delays due to testing phase.
